

Geothermal energy is like having a power plant in your own backyard

Pioneer has been a very big promoter of geothermal energy throughout west-central Ohio for decades. The first geothermal heat pump application we encouraged to be installed through a rebate was in 1988, and since that time 1,264 systems have been installed on Pioneer's electric system at member locations. About 10 percent of Pioneer's residential members already have one!

Pioneer believes geothermal installations are one of the most cost-effective, reliable ways to save on heating and cooling costs in our area on a life-cycle cost basis.

—Ron Salyer, President/CEO

Geothermal takes advantage of the relatively constant temperature of the earth to supplement the heating and cooling systems in your home. In the summer heat, the system helps cool your home by extracting heat from the conditioned space and sending it out to the ground or pond loop. In the winter cold, the system takes the heat from the relatively warm ground and pumps it into the rooms of your home. The below-ground temperature in our area is typically around 54 degrees. The process results in a need for less energy than an air-source heat pump year-round, and in winter a geothermal system is far more efficient than propane, natural gas or oil heating systems.

Pioneer is especially excited about geothermal technology because you save money by simply using less kWh energy to heat and cool your home compared with

traditional methods. In addition, most geothermal systems on the market today are capable of heating water for your home as well, saving even more money. A significant portion of the cost of a geothermal system is in installing the ground loop, so the up-front investment can be substantially more than other systems for many homeowners.

However, the federal government has a 30 percent tax credit available through the end of 2016 for a geothermal installation. Pioneer also has a 2 cent per kWh discount between 1,000 and 2,000 kWh of electricity use for members with a qualifying system — that's up to \$20 off your bill each month. The annual savings in operating the system is typically well worth the additional initial cost of geothermal.

Geothermal's payoff to our members

In the table below are estimates of the potential savings of replacing various heating and cooling systems with a geothermal system.

Pioneer wants everyone to consider a geothermal system since it is very cost-effective for our members who plan to stay in their homes for a long period of time. If your current heating and cooling systems are

Ron Salyer
President & CEO

ESTIMATE OF ANNUAL COSTS OF OPERATION

	Closed Loop Geothermal Heat Pump	Standard High Efficiency Heat Pump	High Efficiency Oil Furnace with Air Conditioner	High Efficiency Propane Furnace with Air Conditioner	High Efficiency Natural Gas Furnace with Air Conditioner
Heating Costs	\$691.38	\$996.63	\$2,350.83	\$3,048.85	\$630.00
Cooling Costs	\$178.50	\$249.38	\$249.38	\$249.38	\$249.38
Typical Fuel Costs					
Electricity	\$0.105/kWh	Fuel Oil	\$3.25/gallon		
Propane	\$3.10/gallon	Natural Gas	\$0.70/ccf		
*All estimates are based on 2,000-sq.-ft. home with four occupants.					

nearing the end of their useful lives, think about a geothermal system installation for your home. Visit our website at www.pioneerec.com or call today to learn more ways to save!

Plan **NOW** for your 2012 capital credit refund

The board of trustees of Pioneer Electric Cooperative is again planning to retire capital credits in the spring of 2012. The total refund amount is not yet known, but it is expected to be comparable to the amount paid during 2011. If your electric use this year has been consistent with your use in 2010, you can expect a similar refund.

The plan is to again distribute checks to current members during the Cooperative Spirit Day activities on March 24 at Edison Community College. **If you would prefer to have your refund applied to your electric bill, you simply need to contact us at**

800-762-0997 or by e-mail at mscenter@pioneerrec.com. If you received a bill credit in 2011, we already have that preference in our system and will apply the refund as a credit again next year. If you have a past-due balance on your account at the time of the refund, capital credits will automatically be applied to your bill.

All requests for bill credit rather than check must be submitted by Monday, February 27. After that date, checks will be processed for distribution and the Cooperative cannot accept further bill credit requests.

Pioneer Electric Cooperative wishes you and your family a Merry Christmas & Happy New Year!

As a reminder, our office will be closed for the holidays on Friday, December 23, & Monday, December 26, and Monday, January 2.

Emergency service is always available by calling 1-800-762-0997.

Pioneer gift certificates available

Are you looking for something unique for a person on your holiday gift list? An ELECTRIC gift certificate is a one-size-fits-all, "no need to worry about returns," GIFT. You can purchase certificates from either office for any amount. The amount will be deducted from the member's account on the January bill.

Electricity theft: Not worth the risk

BY CHRISTINE SMITH

Every year, electric cooperatives across the country cope with thieves — folks who deliberately tamper with their electric meter to steal power. Not only is this practice extremely dangerous, but it's a serious crime that can result in hefty fines and jail time.

People do some dangerous things — using knives, forks, magnets, jumper cables and any number of other objects to get around paying for the power they use. Not only are these persons stealing from their fellow cooperative members, but they're also risking their lives and those of our workers.

According to the Cooperative Research Network, a division of the National Rural Electric Cooperative Association, power surging through a compromised meter can cause an electrical catastrophe. A short circuit could produce an arc flash bright enough to cause blindness and powerful enough to launch fragments of shrapnel-like, red-hot debris. Serious injury or death from electrocution, explosion, or fire often results from meter tampering. Only trained Pioneer personnel wearing protective clothing should work on meters.

Any time you get into a meter base, you run a risk. With an arc flash, somebody could get killed or seriously maimed.

Electricity theft is not a victimless crime. Your not-for-profit Cooperative loses revenue and expends resources to investigate tampering. These costs are then passed on to the entire membership. National estimates vary, but the *Washington Post* cited revenue protection officials who claim between \$1 billion and \$10 billion worth of electricity is stolen from utilities annually.

Since everyone pays for lost power, please let us know if you suspect meter tampering. Call Pioneer Electric Cooperative at 1-800-762-0997 to report possible theft of service. All information can be given anonymously.

12 Days of Holiday Safety

It's easy to make safety a part of your holiday with these tips. Tackle one a day and you're well on your way to a safe New Year!

ESFi
Electrical Safety Foundation International

Day 1 What's that noise?
Test your smoke and carbon monoxide alarms. Make sure everyone knows what to do if they hear them.

Day 2 What a shocker!
Before use, inspect all electrical lights, decorations and extension cords for damage.

Day 3 Two's company, three's a crowd. Do not overload outlets with too many decorations or devices.

Day 4 Is it working? Test your ground-fault circuit interrupters (GFCIs) and arc-fault circuit interrupters (AFCIs) to make sure they're protecting you.

Day 5 Ouch! Prevent trips and falls by keeping cords safely along walls and out of doorways and high-traffic areas.

Day 6 Kids eat the darnedest things! Avoid putting lights, metal hooks, breakable ornaments, and other small decorations within reach of young children.

Day 7 Thirsty? Keep your Christmas tree stand full of water. A fresh, green tree poses less of a fire hazard than a dry tree.

Day 8 Make a wish! Blow out the candles before leaving a room or going to bed.

Day 9 Nice and warm. Keep space heaters at least 3 feet away from anything that can burn — decorations, trees, gifts and curtains.

Day 10 Can't touch this! Consider installing tamper-resistant outlets/receptacles to prevent kids from inserting objects into the slots.

Day 11 Escape Route: Share your family fire escape plan with overnight guests.

Day 12 Hot stuff! Keep children away from cooking areas; use back burners and turn pot handles in away from little hands.

There's no greater gift you can give your family than a safe and happy holiday! Learn more at holidaysafety.org.

Decorating with lights this holiday season?

Consider light-emitting diodes (LEDs)! They cost more initially but last twice as long as traditional lights, and you'll recover the difference in three to four years. LEDs use between 1 kWh and 3 kWh of energy, compared to between 12 kWh and 105 kWh for traditional lights, saving \$11 every holiday season.

Pioneer is selling strings of LED Christmas lights at both office locations. These lights can be used for both indoor and outdoor decorating! Each 36 medium size (C6) string is \$12.99 (plus tax).

Unclaimed funds will be forfeited

Time's running out

Pioneer is requesting your assistance in locating these former members so they may receive the refunds due them. These former members' applications for general refund were returned as "insufficient address" by the U.S. Post Office. Their names are listed below. If you have a current address on any of these individuals, please contact the Member Service Center. Contact us at 1-800-762-0997 or by e-mail at mscenter@pioneerec.com.

Please note, if you should move off Pioneer's system, you must keep us informed as to your address. When you become eligible for a capital credit refund, your check will be mailed to you. Each year active members receive a statement showing the amount of their individual capital credit accrual. The money is refunded when it is financially feasible to do so as designated by the board of trustees.
