

2021 GEOTHERMAL INCENTIVE

for Pioneer Electric Members

DOES YOUR
HEATING &
COOLING
SYSTEM
QUALIFY FOR
ADDITIONAL
SAVINGS?

To get started complete the Heating & Cooling incentive application located under rebates and incentives on our website, www.pioneerec.com, or call our office.

For more information about rebates, incentives, rate discount, or to set up an inspection of installed equipment contact **Ted Riethman** at [800.762.0997](tel:800.762.0997) or energyadvisor@pioneerec.com.

Pioneer Electric is offering a bill credit to cooperative members who purchase and install energy efficient heating and cooling systems in their homes in 2021. This incentive is only available to residential members. Members must install the equipment in compliance with **ENERGY STAR**[®] requirements before December 31, 2021.

Earn up to a \$900 bill credit

by installing a geothermal system with either electric or fossil fuel backup.

\$700 for qualifying geothermal installation

\$200 for participating in Pioneer's Cool Returns Load Management Program

To earn a **\$400 bill credit**, in addition to the \$900 above, members must be installing a new closed loop system.

Requirements: The equipment must meet the following energy standards upon installation: Closed Loop EER 17.1, COP 3.6; Open

Loop EER 21.1, COP 4.1.

Additional qualifications:

- To benefit your electric cooperative, every attempt should be made to participate in the load management program. **It is recommended that the heating contractor install the load management switch at the time of installation.*
- **MUST HAVE** documentation of efficiency ratings and all installed equipment (**AHRI Certification**)
- Equipment must be **Energy Star-rated**. For more information, visit www.energystar.gov.
- Heat pump sizing requires a Manual J or industry recognized heat loss calculation.

Additional rebates and incentives available through Pioneer:

Geothermal & Heat Pump Rate Discount: Qualifying dual fuel or geothermal systems may be eligible for an electric rate discount if they also have a 50 gallon or larger electric water heater with our load management switch.

Electric Water Heater Incentive: Receive a **\$250** bill credit on a 50-gallon or larger electric water heater if it is tied into the new geothermal installation using a desuperheater. Or, install a new 50-gallon or larger electric water heater to be eligible to receive \$150.

All rebates are issued in the form of a credit to the member's electric account. Maximum two rebates per consumer-member.

Offer is good through December 31, 2021. This incentive applies to any Pioneer member who signs a contract and has a qualified system quoted and installed during the designated time frame.

What should dealers provide?

- › Sketch of the loop layout location in reference to existing buildings
- › Load calculation for equipment sizing
- › Owner's manual, operation and installation instructions and warranty information
- › Maintenance/service contract offer

2021 INCENTIVE APPLICATION

for Pioneer Electric Members

Please complete the form below for the appropriate incentive **BEFORE** scheduling an appointment. Contact us at 800.762.0997 or energyadvisor@pioneerrec.com to setup appointment. ****Copy of AHRI Certification is needed with this form.** Maximum two rebates per member-consumer.
